

# Regionalgruppe Heidelberg der Deutschen Gesellschaft der Humboldtianer

---

## **Einladung zum nächsten Humboldt-Abend**

Liebe Humboldtianer, liebe Freunde,

es ist lange her, seitdem wir uns das letzte Mal in Heidelberg wiedergesehen haben. Wir blicken so sehnsuchtsvoll auf diesen schönen Sommerabend 2019 in der Altstadt zurück. Wir sind zuversichtlich, dass wir so einen Humboldt-Abend in absehbarer Zeit wiederholen werden. Bis dahin haben wir immerhin die Möglichkeit, uns per Zoom über eigene Forschungsthemen und andere Belange auszutauschen.

Daher möchten wir Sie/Euch zu einem neuen Humboldt-Abend \*am 12. Juli 2021 um 20:30 Uhr\* einladen, der als virtuelles Treffen unter folgendem Link stattfinden wird:

Zoom Meeting

<https://cern.zoom.us/j/61606943132?pwd=ZmplYVhXOW5BcTVxK0l6S3A5dXdtZz09>

Meeting ID: 616 0694 3132

Passcode: 724811

Unser Vorstandssprecher, Dr. Johann M. Heuser (GSI), wird uns in die Welt seines Forschungsgebietes einführen und dabei sein Forschungszentrum vorstellen:

Abstract:

Research with heavy ions - a (virtual) visit to the GSI Helmholtz Center and its international extension FAIR

Dr. Johann M. Heuser, GSI

Department CBM (Compressed Baryonic Matter)

Project Technical Coordinator - Silicon Tracking System

«We will take a walk of the Research Center's campus located in the north of Darmstadt, introduce its accelerators and some of the experimental programs carried out there in basic and applied research with heavy ions: Search for the heaviest elements, the origin of mass, and cancer treatment with carbon beams. The laboratory's extension with the Facility for Antiproton and Ion Research, being among the largest new research infrastructures worldwide, is under realization by international efforts. We will visit the construction site through a drone camera video and get to know one of the research pillars aiming at studying the properties of nuclear matter at highest densities».

Für eine kurze Teilnahmebestätigung wären wir dankbar.

Es würde uns sehr freuen, Sie/Euch wieder begrüßen zu können.

Mit herzlichen Grüßen

Johann M. Heuser, Frauke Gräter und Claudia Cabezón Doty

### **Invitation to the next Humboldt Evening**

Dear Humboldtians, dear friends,

it has been a long time since we last saw each other in Heidelberg. We look back almost nostalgically upon this beautiful summer evening of 2019 in the Old Town. We are confident that we will be able to repeat such a Humboldt Evening in the foreseeable future. Until then, at least we have the opportunity to exchange the latest news and views related to own research topics and other points of concern via Zoom.

Therefore, we would like to invite you to another Humboldt Evening \*on 12 July 2021 at 20:30\*, which will take place as a virtual meeting at the following link:

Zoom Meeting

<https://cern.zoom.us/j/61606943132?pwd=ZmplYVhXOW5BcTVxK0l6S3A5dXdtZz09>

Meeting ID: 616 0694 3132

Passcode: 724811

Our chairman, Dr Johann M. Heuser (GSI), will introduce us to the world of his research field and present his research centre with it:

Abstract:

Research with heavy ions - a (virtual) visit to the GSI Helmholtz Center and its international extension FAIR

Dr. Johann M. Heuser, GSI

Department CBM (Compressed Baryonic Matter)

Project Technical Coordinator - Silicon Tracking System

«We will take a walk of the Research Center's campus located in the north of Darmstadt, introduce its accelerators and some of the experimental programs carried out there in basic and applied research with heavy ions: Search for the heaviest elements, the origin of mass, and cancer treatment with carbon beams. The laboratory's extension with the Facility for Antiproton and Ion Research, being among the largest new research infrastructures worldwide, is under realization by international efforts. We will visit the construction site through a drone camera video and get to know one of the research pillars aiming at studying the properties of nuclear matter at highest densities».

We would be grateful for a short reply to this invitation, indicating whether or not you will be able to attend.

Looking forward to seeing you soon!

Yours sincerely,

Johann M. Heuser, Frauke Gräter und Claudia Cabezón Doty
